DETAILED OFFICE ACTION

- 1 Claims 1-24 are pending in the Application.

Election/Restriction

2. Applicant's election **with traverse** of claims **1-23, 31-33** in The Communication with the Office on 8/25/05 is acknowledged.

Because Applicant did not distinctly and specifically point out the supposed error in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Applicants have the right to file a divisional, continuation or continuation-in-part application covering the subject matter of the non-elected claims.

The traversal is on the ground(s) that see the election paper. This is not found persuasive because Applicant does not give any reasons for the traversal.

The requirement is still deemed proper and is therefore made **FINAL and non-elected claims 10-24 are withdrawn from consideration.**

Specification

3. The abstract is objected to for the following informalities:

In line 16: " the **fist** thin film transistor " should be: --the **first** thin film transistor--

Correction is required.

4. The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant cooperation is requested
In correcting any errors of which the applicant may become aware in the specification.

5. This application is in condition for allowance except for the presence of claims **10-24** directed to inventions of non-elected claims or dependent of non-elected claims with traverse in Applicant's Communication with the Office on 8/25/2005. Applicant is given TWO MONTH or SIXTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144).

Prosecution on the merits of this case is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213. except for consideration of the above matter.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

6. When responding to the office action, Applicants are advised to provide the examiner with the line numbers and page numbers in the application and/or references cited to assist the examiner to locate the appropriate paragraphs.

7. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d) which papers have been placed of record in the file.

Conclusion

8. The prior arts made of record and not relied upon are considered pertinent to applicant disclosure: Asai (US patent 5,610,736) discloses an Active matrix type display device in which elongated electrodes underlie the signal lines to form capacitors with the pixel electrodes and manufacturing method
